

Given the rapidly changing conditions surrounding COVID-19 in the tri-state area, we want to assure you that the health and safety of our community and our team members are our top priority.

At **Quick Rx Pharmacy**, we are continuously re-assessing the needs of our patients and healthcare providers as the situation evolves. We are implementing a variety of measures in order to better serve our community in the safest and most efficient ways.

These are some of the current benefits offered by all Quick Rx Pharmacy locations:

1. We are **monitoring inventory levels and increasing the supply of all medications relevant to COVID-19**. Our goal is to provide undisturbed service to our patients and healthcare providers during this turbulent time.
2. Our **pharmacy team members across all of our locations are in constant communication** in order to best optimize resources, and are directly reachable by phone to respond to questions or concerns from our patients and healthcare providers.
3. We continue to **offer free delivery** and have **added additional delivery team members** to handle the increase in orders in a timely manner.
4. **We offer, and strongly recommend 90-day refills** whenever possible to decrease the need to travel to the pharmacy for medications.
5. We are **continuously monitoring information from the CDC and World Health Organization (WHO)**.

We are strongly committed to taking every precaution necessary to keep our patients and team members safe and healthy. Our pharmacists and technicians are fully dedicated to serving our patients and healthcare providers during this very difficult time. We will make every attempt to provide updates as they are made available.

At Quick Rx Pharmacy, we pride ourselves on being experts in our field, and will not compromise our level of service due to the current stress of this unforeseen and very unfortunate illness that is impacting our country.

We are here to serve you. Be well!
Your local Quick Rx Pharmacy
